PRESS RELEASE

Oregon Mayor Michael Seferian announced today that a ceremonial groundbreaking construction kickoff will take place on Tuesday, August 24, 2021, at 9:00 am at the site of the new City of Oregon Central Fire Station to be built at 1040 S. Wynn Road. The 20,000 square foot station will replace the current Station #41 located at 5002 Seaman Road. The building will have modern living quarters for the on-duty crews and will house 2 engines, 2 Medic units, Life Squad 8, a brush truck, a supervisor vehicle and provisions for the tower ladder. Primary staffed response to emergency calls will be from this station. Station #42 at 1102 S Wheeling and Station #43 at 4421 Bayshore will continue to operate as satellite stations staffed by paid-per-call part-time firefighters.

Mayor Seferian states, "We're excited to move forward with this new station and our improved response plans. As fire response needs change, our City must adapt to meet those needs. This new station will allow us to continue to make the changes that will best meet the fire and safety needs of our community."

Fire Chief Denny Hartman states, "We greatly appreciate the support from our community in making these changes. Our firefighters are looking forward to operating in this new environment and eagerly await completion."
