**RE: Surveying Notice**  
Starr Avenue Waterline Replacement - 2018-19

**Dear Property Owner:**

Beginning the end of this week, a surveying crew will begin conducting a field survey to obtain topographic information for the preparation of construction plans for a waterline replacement project that is currently being planned for your area in 2018-19. The Starr Avenue Waterline Replacement project area will include Starr Avenue between Stadium Road and Wynn Road.

The consultant for the survey project is DGL Consulting Engineers, 3455 Briarfield Blvd, Suite E, Maumee, Ohio 43537. The survey crew was told to insure minimal disturbance and inconvenience to the properties and traffic during the field survey for this project.

Personnel performing the fieldwork will be collecting data only and do not have information relative to design or construction matters. They will be carrying copies of this letter to serve as their identification as a consultant to the City of Oregon.

If you have any further questions or comments regarding this information or the project, please call myself or Andrea Beard, Engineer, at (419) 698-7047.

Sincerely,

Paul Roman, P.E.  
Director of Public Service
